Sales & Marketing Director

Released 01/25

Rudolf Brügger SA

Your micro-mechanic specialist

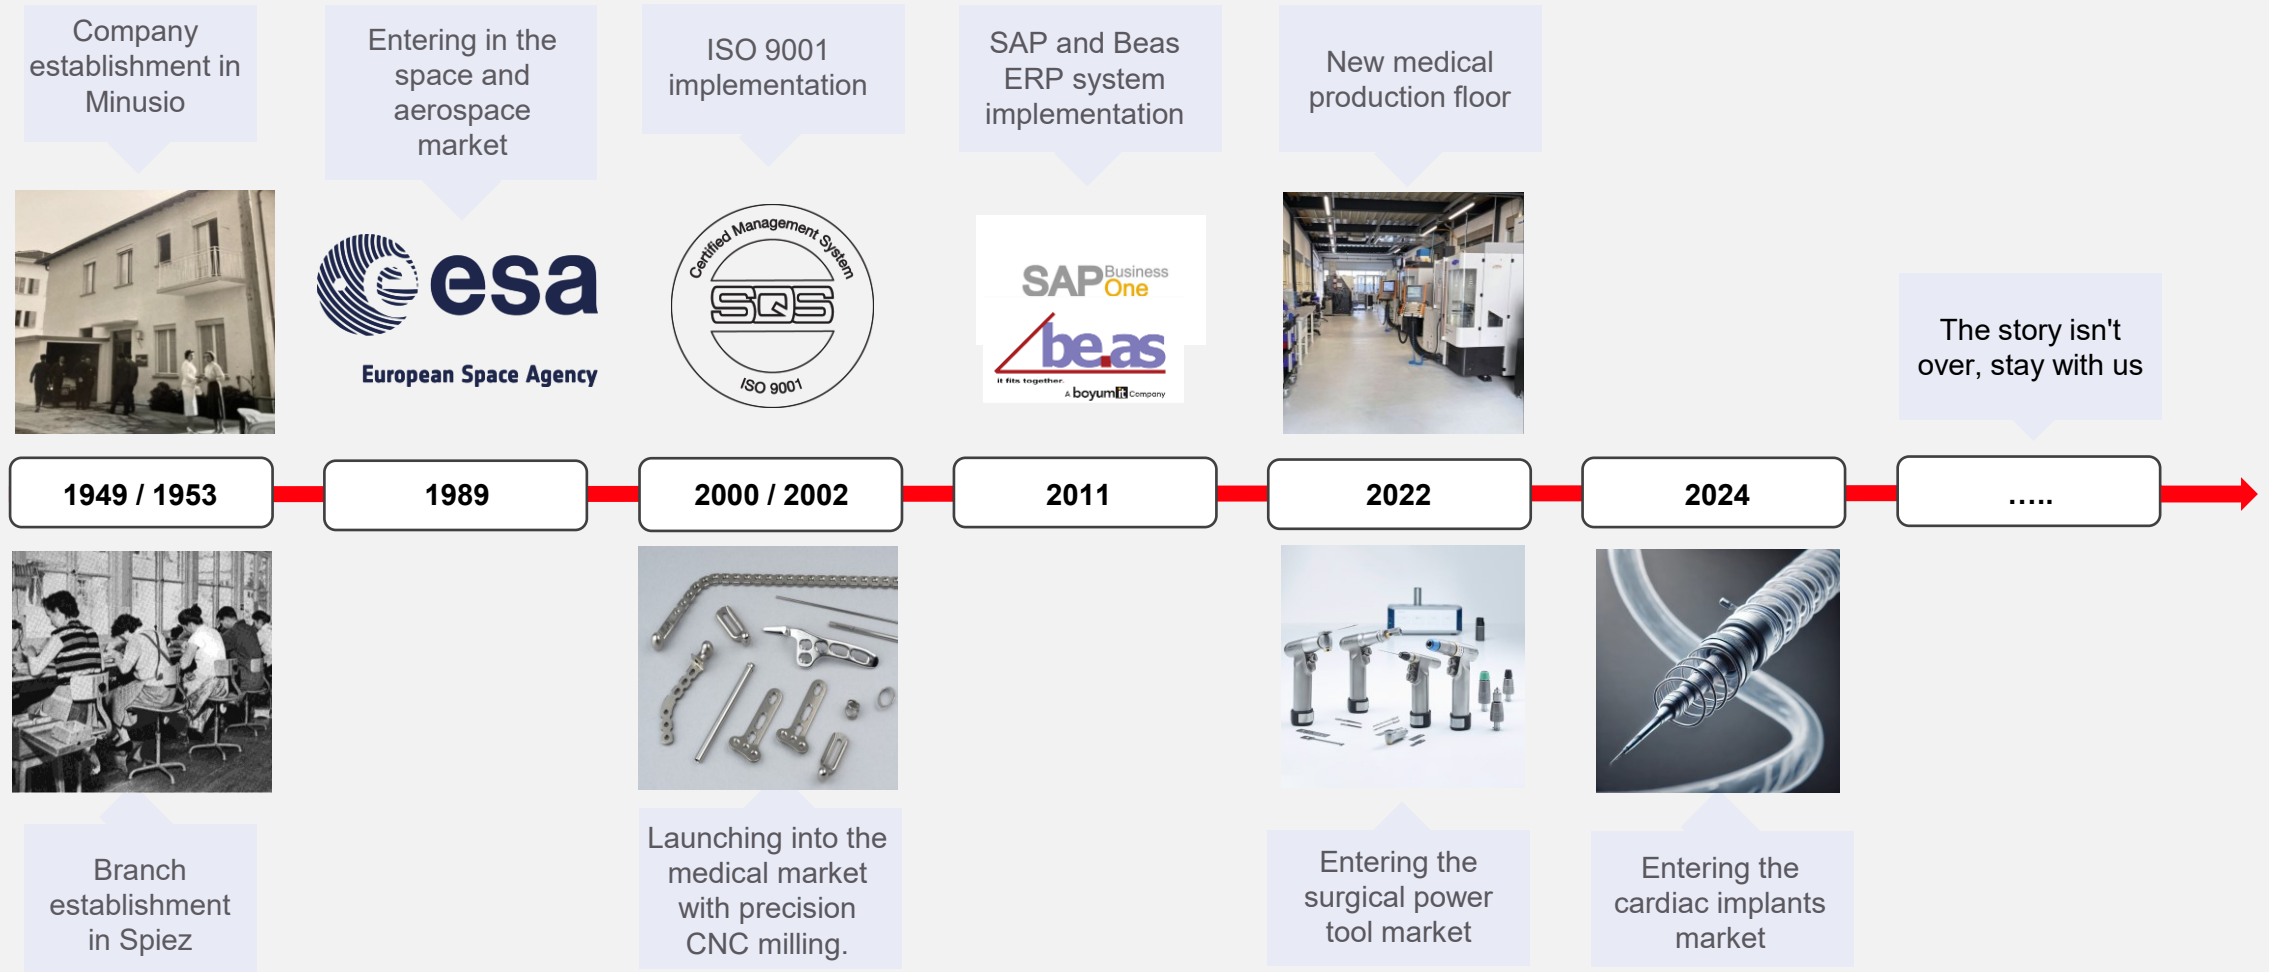

- **Leading Swiss company** specializing in the production of **highly precise** and complex **micro-mechanical** components made from **advanced materials** and **sub-assemblies**
- Unique capabilities and high-end machinery enabling **miniaturization**, **high precision** and outstanding **quality**
- **75-year-experienced family-owned** business established with **35 employees** at **2 operating sites in Switzerland**

Latest Technology Roadmap Highlights

- ✓ 2025 – New 5-axis milling machine Mikron MILL X 400 U (grinding)
 - New Laser Marking + Engraving machine
- ✓ 2024 – New 5-axis milling machine Mikron MILL S 200 U
 - New W-EDM GF-AC CUT1000
- ✓ 2023 – New turning machines Schaublin 632 Y
 - New Keyence 3D Laser Scanning Microscope

Rudolf Brügger SA

Milestones

Rudolf Brügger SA

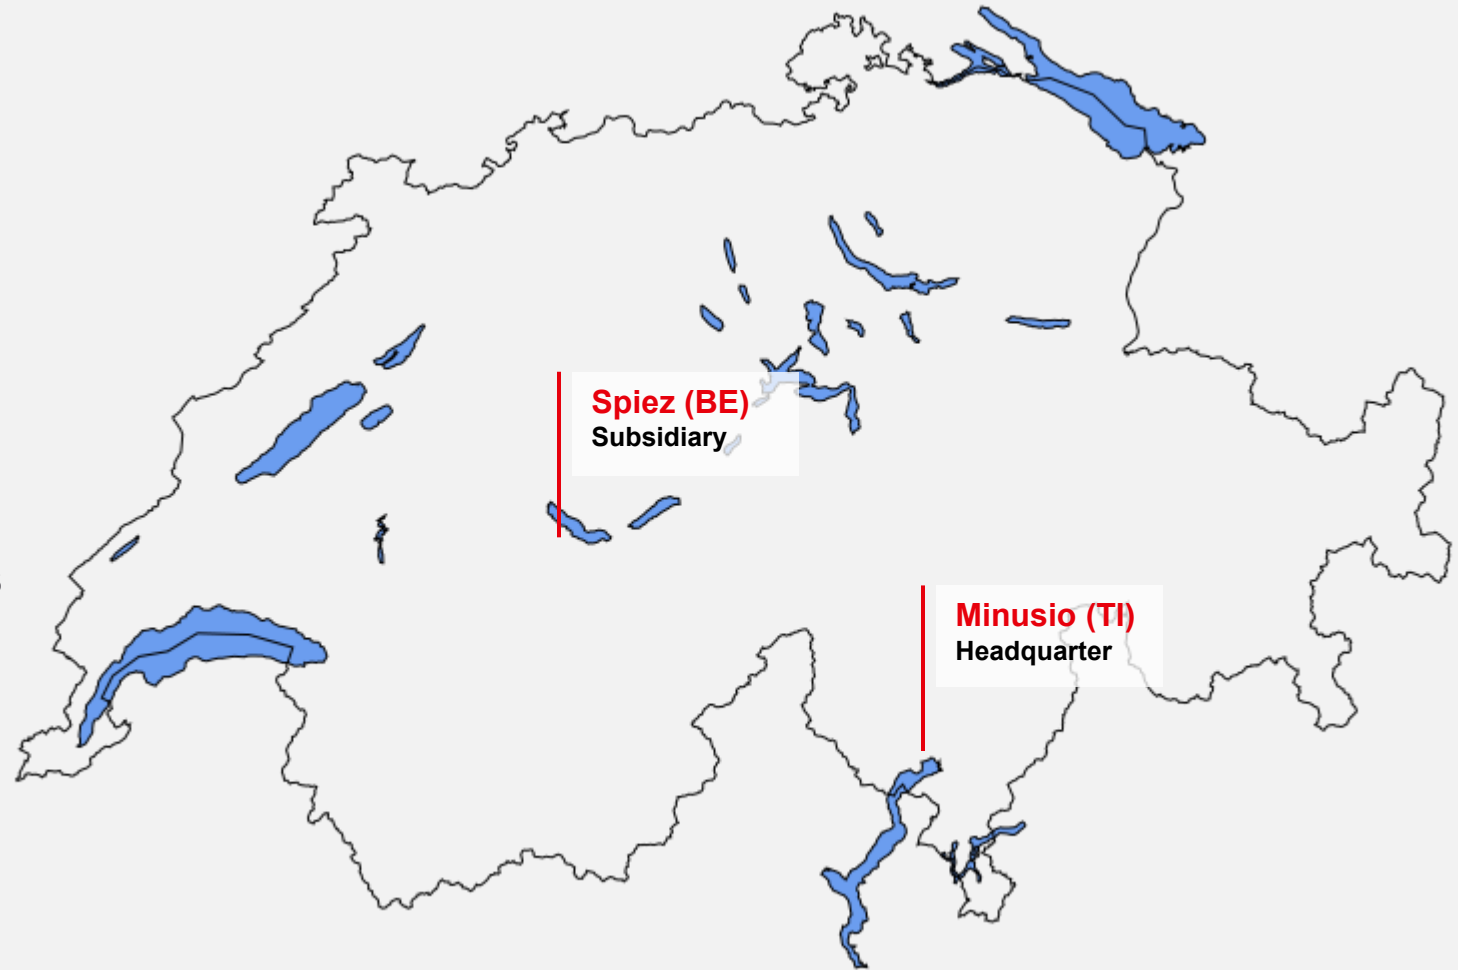

Swiss operating sites

Minusio

- Headquarter
- Customer Service
- Machining Competences Centre
- Engineering & Assembly

Spiez

- Manufacturing Subsidiary
- Competences Centre for Honing & Turning of extra-hard materials

Company Values

ISO 9001:2015

Awareness

Understanding and anticipating risks effectively.

Diversification

Access to a versatile machine park, equipped for both innovative and traditional technologies.

Cooperation

Proactive collaboration with customers to ensure efficient production in compliance with agreed terms and specifications.

Innovation

Utilization of technologically advanced systems and a workforce trained in optimized working procedures.

Versatility

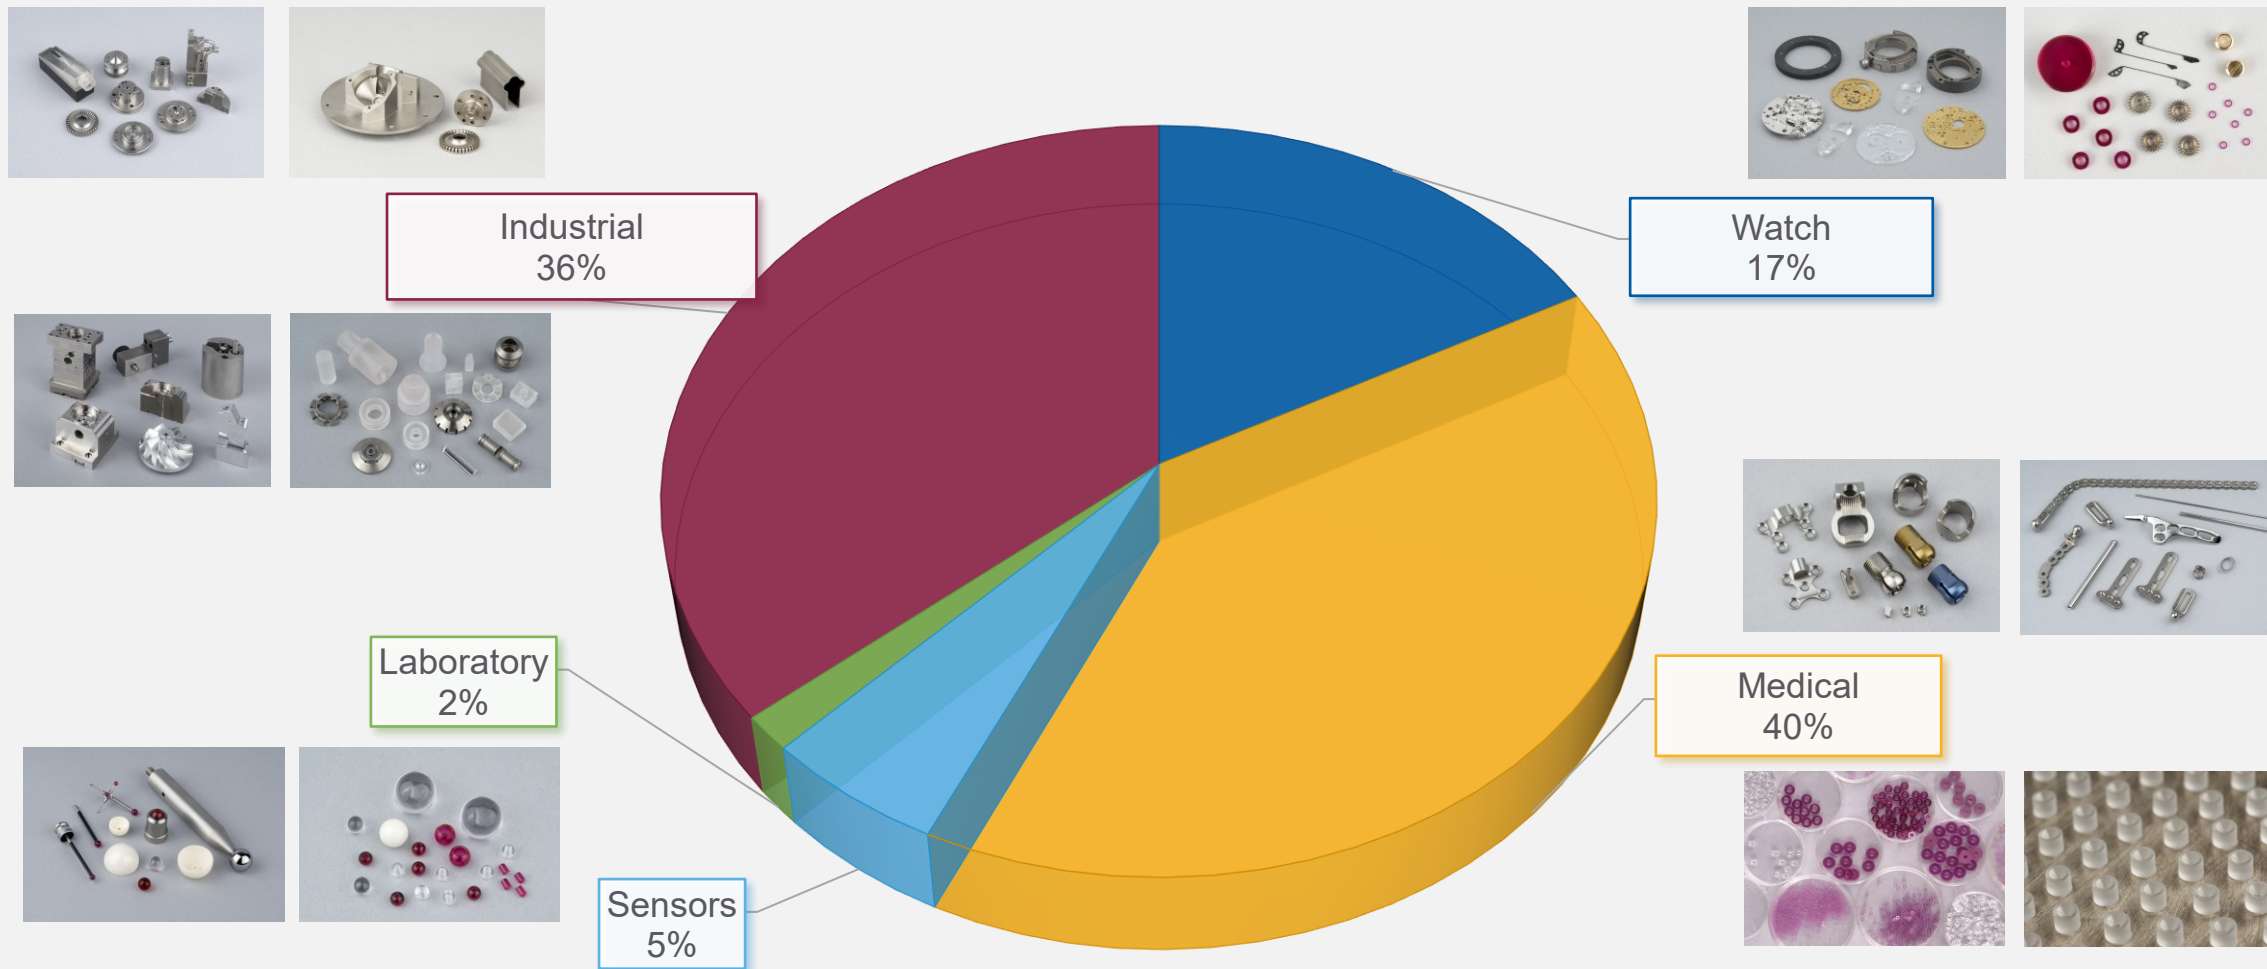

A streamlined and adaptable organizational structure designed to meet diverse customer needs.

Quality Assurance

Guaranteeing that products are manufactured in compliance with ISO quality standards, ensuring consistent excellence.

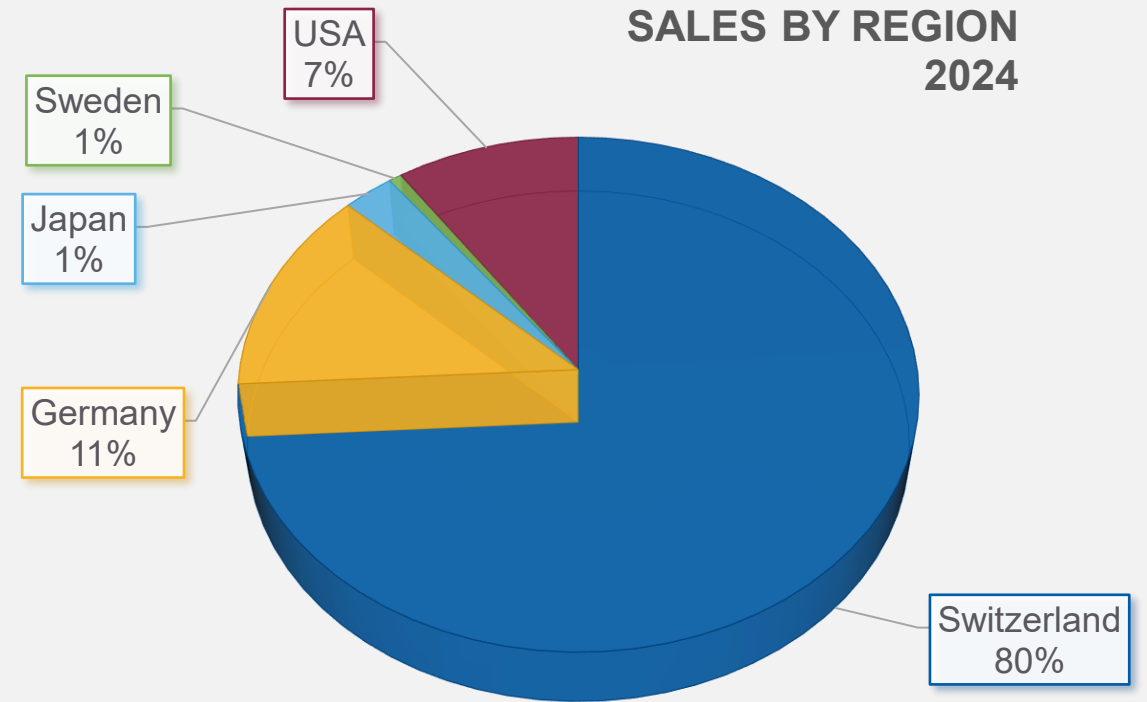

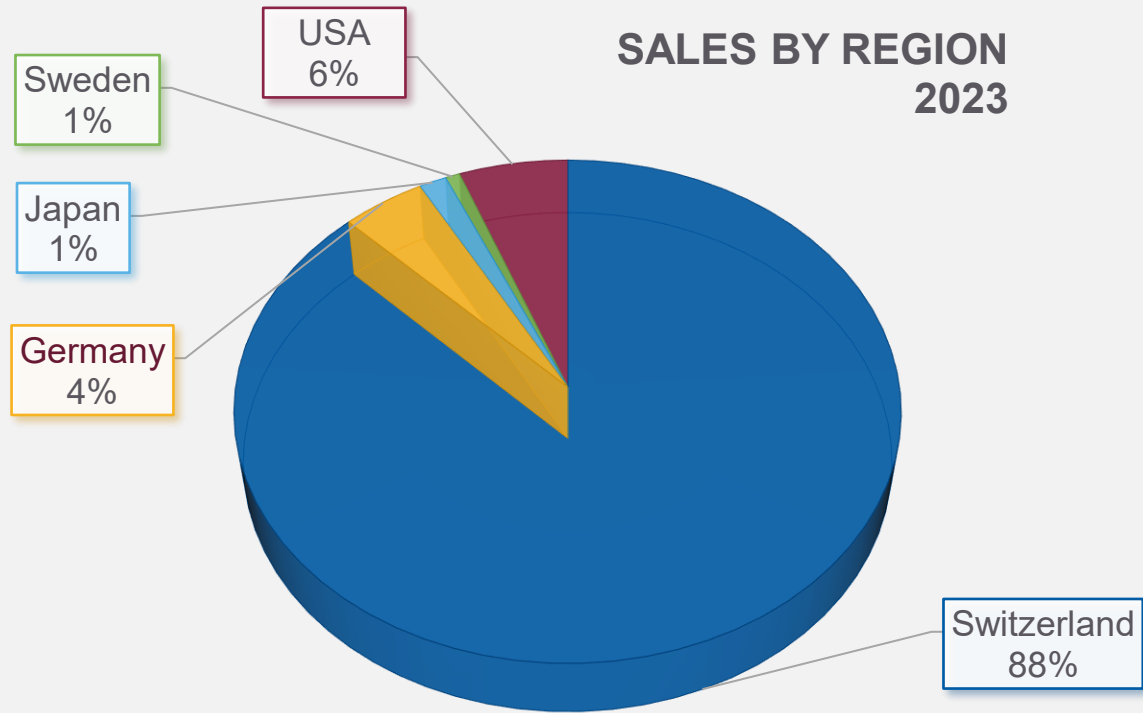

Markets

Serving customers in growth markets 2024

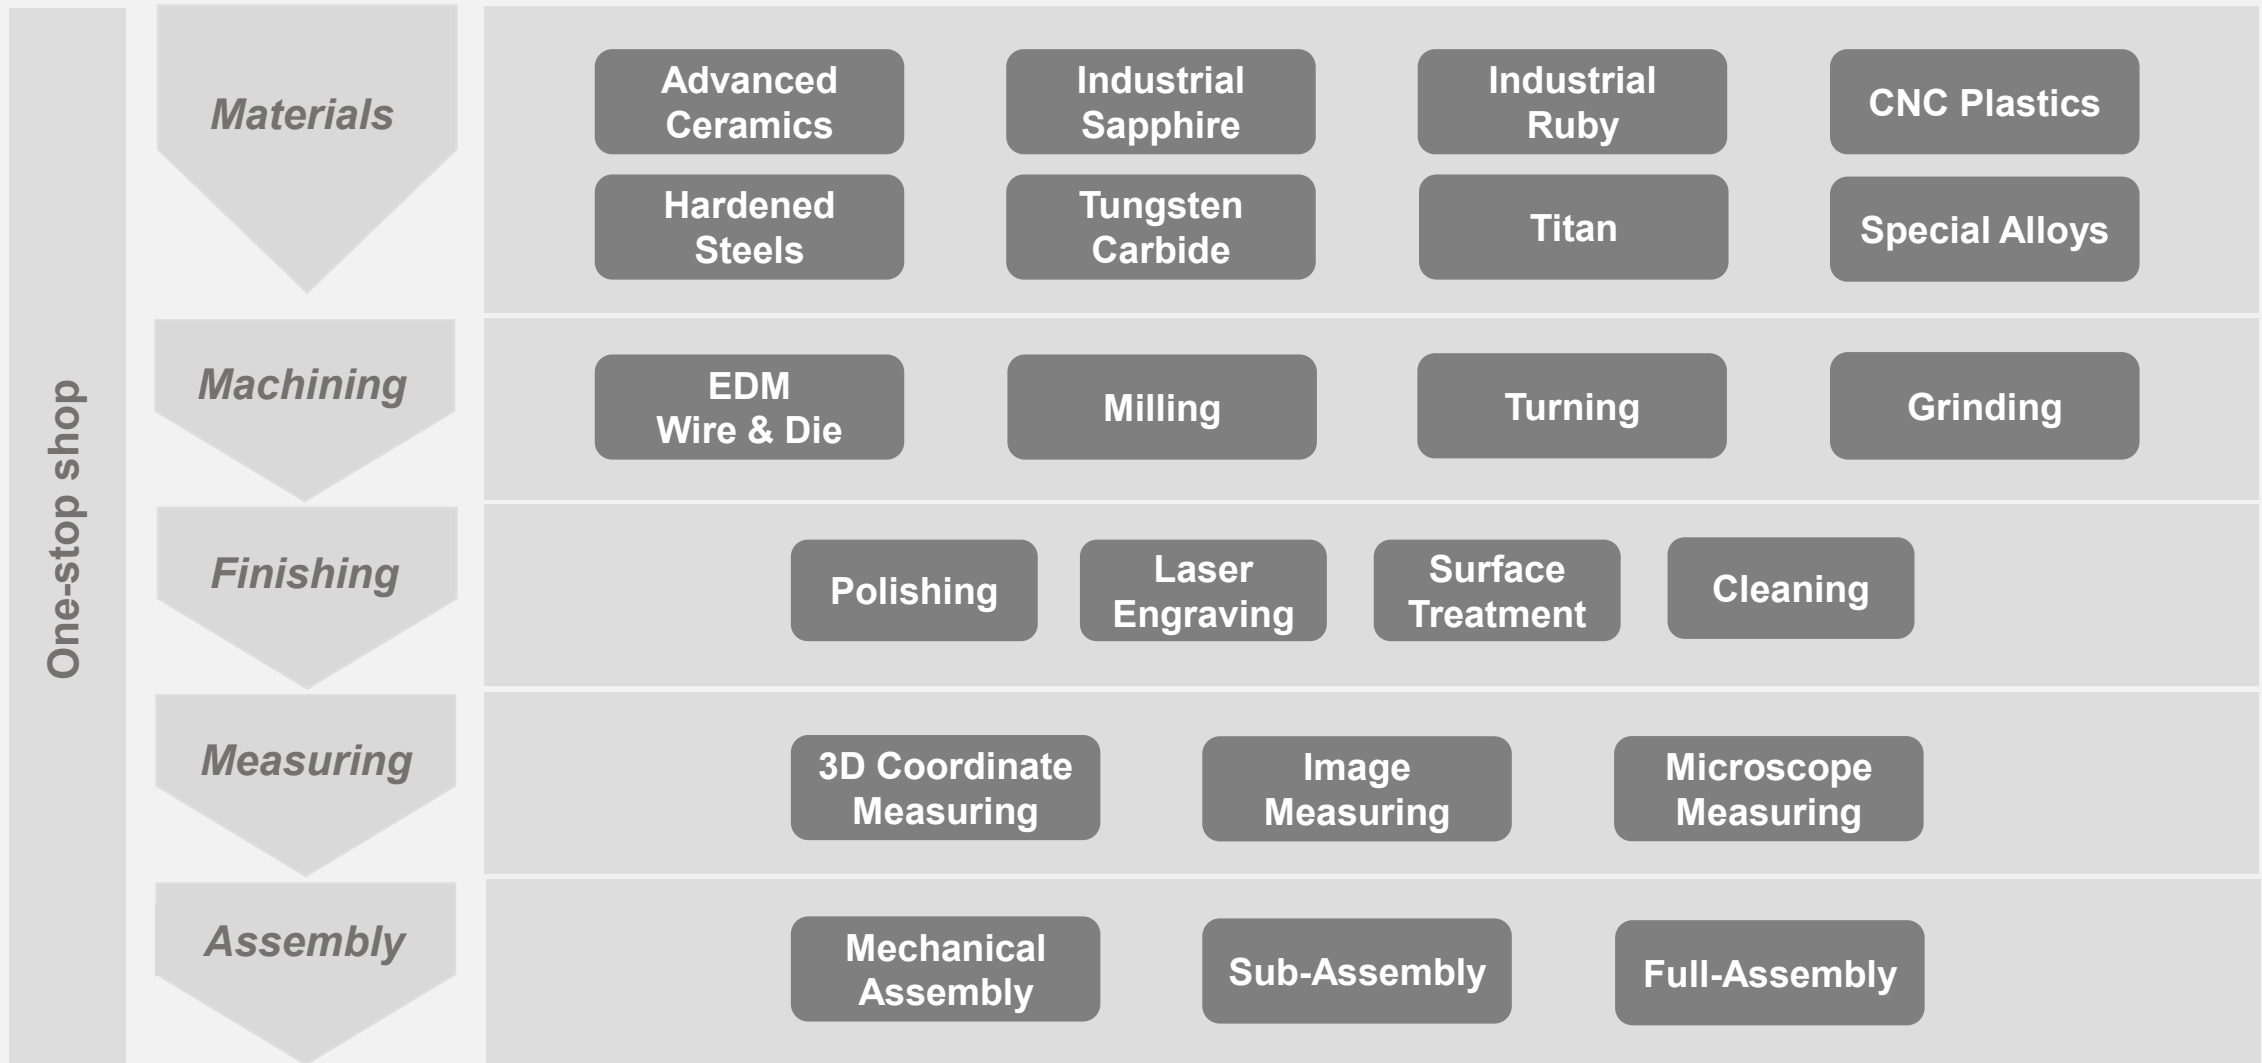

Sales by region

Serving customers worldwide

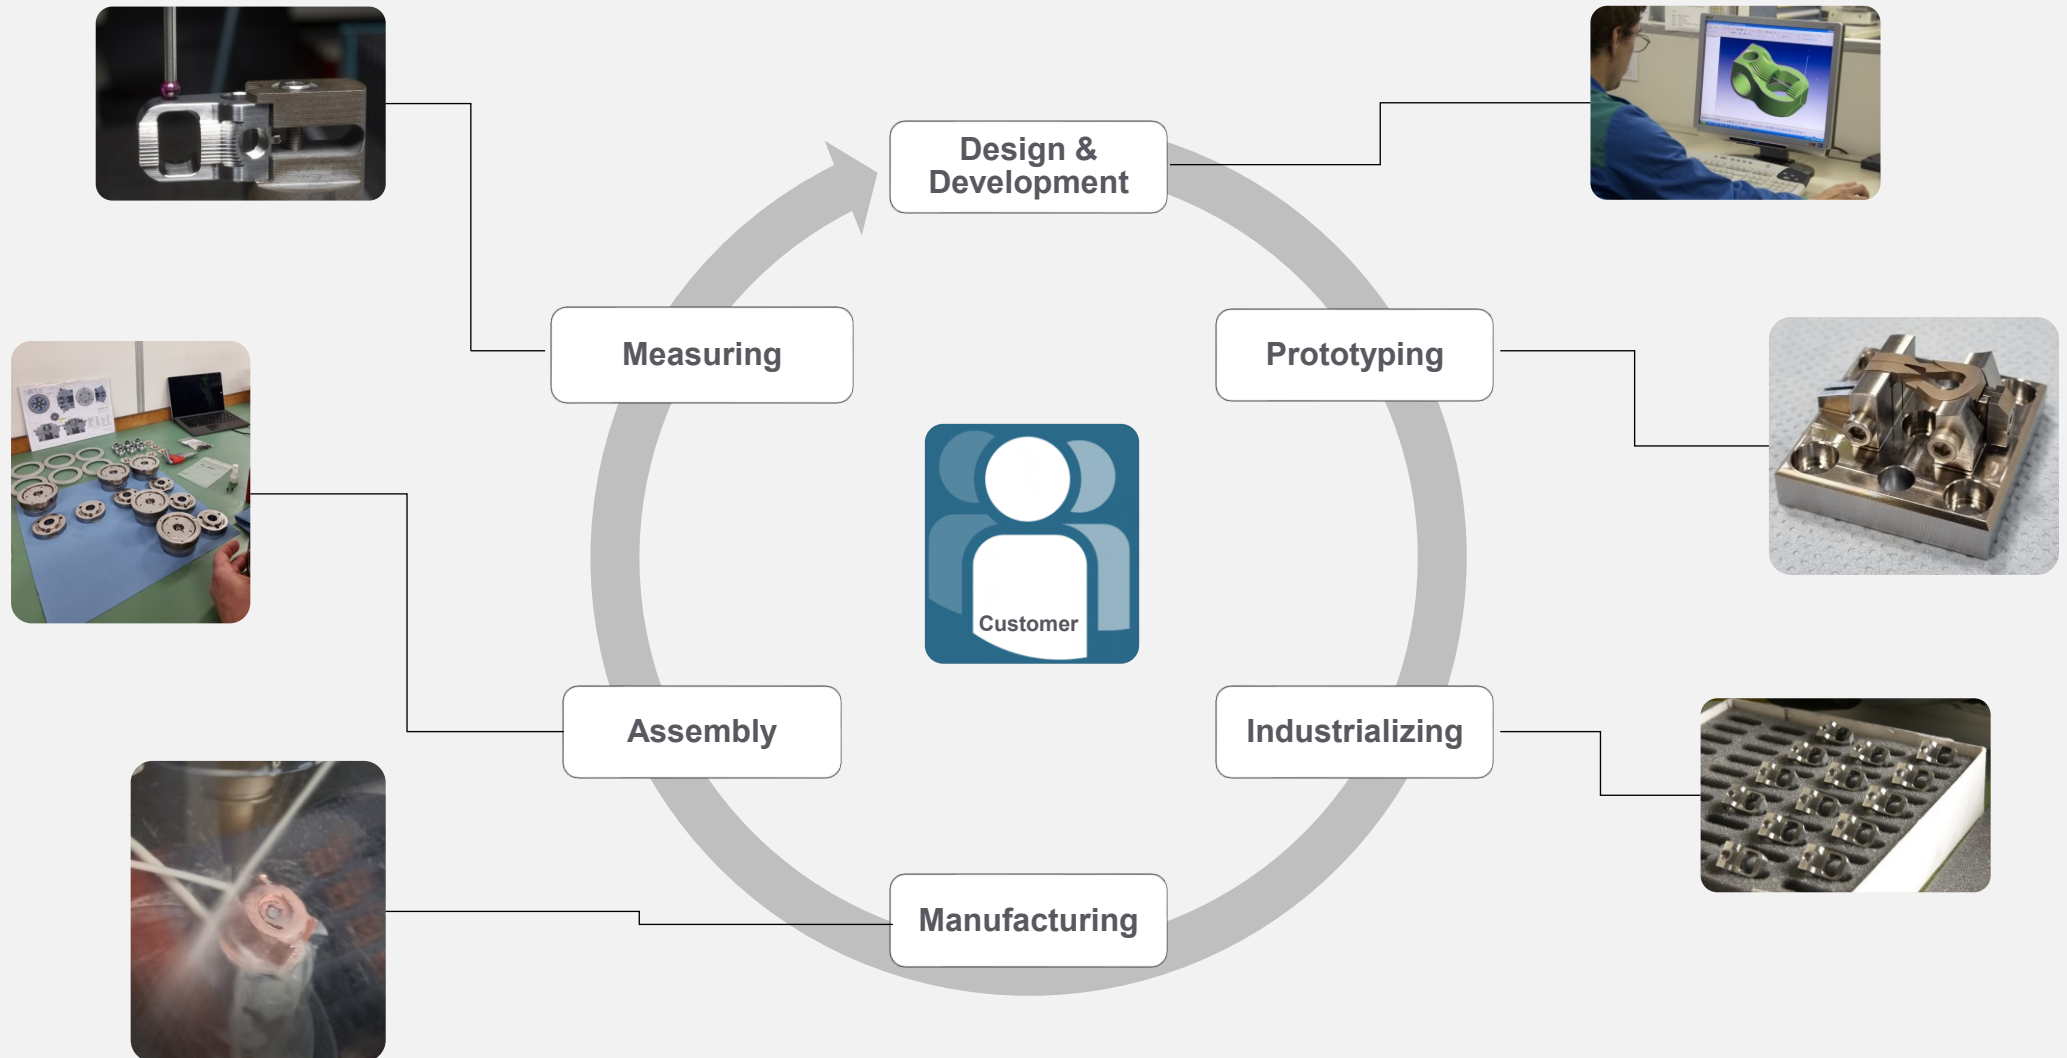

One-stop Shop

Flexible and innovative solutions on a high-tech level

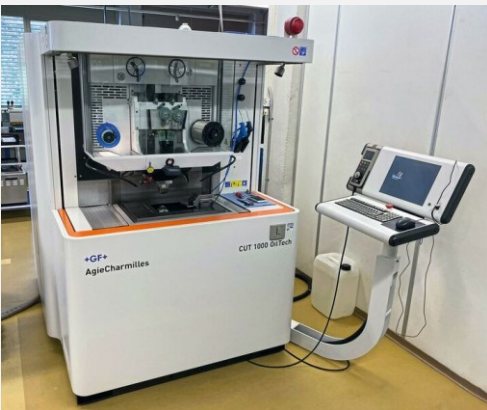

Core competences

Customer benefits

Machining services

@Rudolf Brügger

❑ **CNC 5-Axis Milling**

- 7 x Machining Center (max. 500 x 450 x 360mm)

❑ **CNC 3-Axis Milling High Speed**

- 1 x Machining Center (max. 220 x 160 x 248mm)

❑ **Electro Discharge Machining**

- 4 x Wire EDM (wire dimensions from 0.02 to 0.30mm)
- 1 x Sink EDM Fine Drill
- 2 x Sink EDM (max. 350 x 250 x 250mm)

❑ **CNC Turning**

- 3 x CNC Turning Machines (max. Ø 32mm)

❑ **Grinding**

- Surface grinding
- Certeless grinding
- Cylindrical & Bores grinding (Grandissage & Tournage)

❑ **Laser engraving**

Machine Park

Measurements & Traditional Machines

❑ **Traditional Machines**

- Turning machine SCHAUBLIN 102
- ACIERA milling machine F3
- 3 x grinding machines TACCHELLA
- 1 x grinding machine TACCHELLA *with automatic charger for ceramics*

❑ **Cleaning**

- Ultrasonic Cleaning
- Automatic Cleaning Line with citric passivation
(implementation phase)
