

Moutier, 21st – 24th April 2026

Exhibitor's Guide

1. "Turnkey" stands and compulsory exhibitor pack

SIAMS rents out stands on a "turnkey" basis. The following elements are included in the price:

White walls, structure, anthracite carpet, banner with company name, 1 spotlight/4m², daily cleaning of the stand, including the day before opening, and daily removal of all rubbish, exhibition registration, catalogue and website registration, 1 T-13/1000W socket, 1 parking space, WIFI and a festive aperitif at the exhibitors' music evening on Thursday evening.

Wall height: 250 cm / Headband: 30 cm (total height: 280 cm).

The turnkey stand does not include furniture. The order form for stand furniture and accessories is available at the following address: www.siams.ch / Exhibit / Registration & Login.

2. Individual stands (bare surface) and compulsory exhibitor pack

Companies wishing to build their own stand can do so. In this case, they place an order for a bare surface.

The following items are included in the price:

Daily stand cleaning, including the day before the exhibition opens and daily removal of all waste, exhibition registration, catalogue and website registration, 1 T-13/1000W socket, 1 parking space, WIFI and a festive aperitif at the exhibitors' music evening on Thursday evening.

For technical reasons, these companies must send a plan of their stand before 13.02.2026 to :

MCC Consulting AG, Letzigasse 10a, 4800 Zofingen or by mail to :

christen@mcc-ag.com

The maximum height of individual stands is limited to 400cm.

In halls 2.1 and 2.2 at 330 cm,

In hall 1.0 (tent) it is 300cm along the walls and 4m in the centre.

The backs of walls longer than 250 cm should be clean and white.

3. Surfaces SIAMS 2026

Interest in this 19th edition of SIAMS is already high. In order to accommodate as many exhibitors as possible and offer visitors the widest possible choice of products, the maximum stand size is still 64m².

4. Prices

The rental price for a "turnkey" stand is :

Turnkey stand with 2 open sides :

Turnkey stand with 3 open sides :

Turnkey corner stand

Halls

CHF 305.-/sq.m

CHF 230.-/sq.m

CHF 300.-/sq.m

CHF 335.-/sq.m

CHF 290.-/sq.m

Whatever the surface area chosen, registration automatically implies ordering the 'exhibitor pack' for the main exhibitor. ([Possibilities and Rates - SIAMS](#)).

5. Technical orders

The document for technical orders is available on our website: www.siams.ch / registration form with your login. You can use it to order your electricity requirements, compressed air, additional parking spaces, draw your stand with the location of the various connections and mention your machines weighing more than 1,500 kg (compulsory).

A T-13/1000W electrical socket is automatically included in the stand rental, and exhibitors must indicate on a sketch where they wish it to be placed.

6. Machine arrival and handling in the halls

The arrival of heavy machinery (over 1,500 kg) for unloading and setting up is subject to a schedule that will be communicated in good time. A company official must be present during unloading and loading for departure.

Only the official SIAMS handler is authorized to use forklift trucks inside the halls..

For logistical reasons, machines weighing more than 1,500 kg should be mounted on wooden skids rather than on metal frames or pallets.

7. Catalogue listing

Catalogue registration is compulsory. Basic data (exhibitor's full contact details and 12 product codes) are free of charge. Additional product codes, texts on the website and advertisements are optional and subject to a charge, according to the rates shown in the 'Catalogue registration' form, under www.siams.ch / registration form with your login.

8. Management of empty packaging

Empty packaging is managed by MCC Consulting AG. Coloured labels to be affixed to the equipment to be collected will be available at the information stand during assembly. The price includes removal, storage and return of the material at CHF 75.-/m³.

Only empty, clean, stacked and tied packaging will be stored by SIAMS.

9. Caution system during assembly/disassembly

To ensure that traffic flows smoothly through the halls during assembly and dismantling, a caution system will be set up depending on the traffic load.

Exhibitors entering the exhibition area with a car must pay a deposit of CHF 100.-, giving them the right to stay for 45 minutes (60 minutes for vans). He must then leave the exhibition area and park his car where indicated. The security deposit will be returned by the security guard on leaving the exhibition area.

If the 45-minutes or 60-minutes time limit is exceeded, the deposit will not be returned.

The security guards responsible for returning the deposit will remain on site for one hour after the last deposit has been cashed. It is therefore not possible for an exhibitor to leave the exhibition area within the time limit without recovering the deposit.

10. Regulation

This 'Exhibitor's Guide' is an integral part of the SIAMS regulations. These regulations are available on our website: www.siams.ch, / Exhibit / Registration & Login
